

## Meritor Air Disc Brakes

## ELSA Disc Brakes

### Performance Advantages:

- Tried, Tested and Proven product for high speed applications
- Robust design manufactured in India suitable for Indian operating conditions
- Provides greater stopping power and enhanced safety packaged in a easy to maintain assembly
- Pad wear sensor for optimum use of brake pads and longer life
- Vented Rotor for greater heat dissipation and uniform performance under all operating conditions

## Product Description :

ELSA 225H is the forerunner of disc brake technology for commercial vehicles in India. The design has been tested and proven in high speed environments of Europe and is now being offered to suit Indian driving conditions. Enhanced safety features like the Pad wear sensor, Pad lining and the robust caliper design make it an ideal product for high speed passenger and commercial vehicle applications.

## Product Specification :

Brake Model	Design Rated Torque	Max. Pad Wear	Disc Outer / Inner Dia.	Wheel Rim
ELSA 225H	26.0 KNm	18.5 mm	434 / 260 mm	22.5 "

All the specifications shown are indicative, for actual application approval please contact MHVSIL Engineering Group
