

Front Steer Axle FH 946 Deep Drop Axle

FH 946

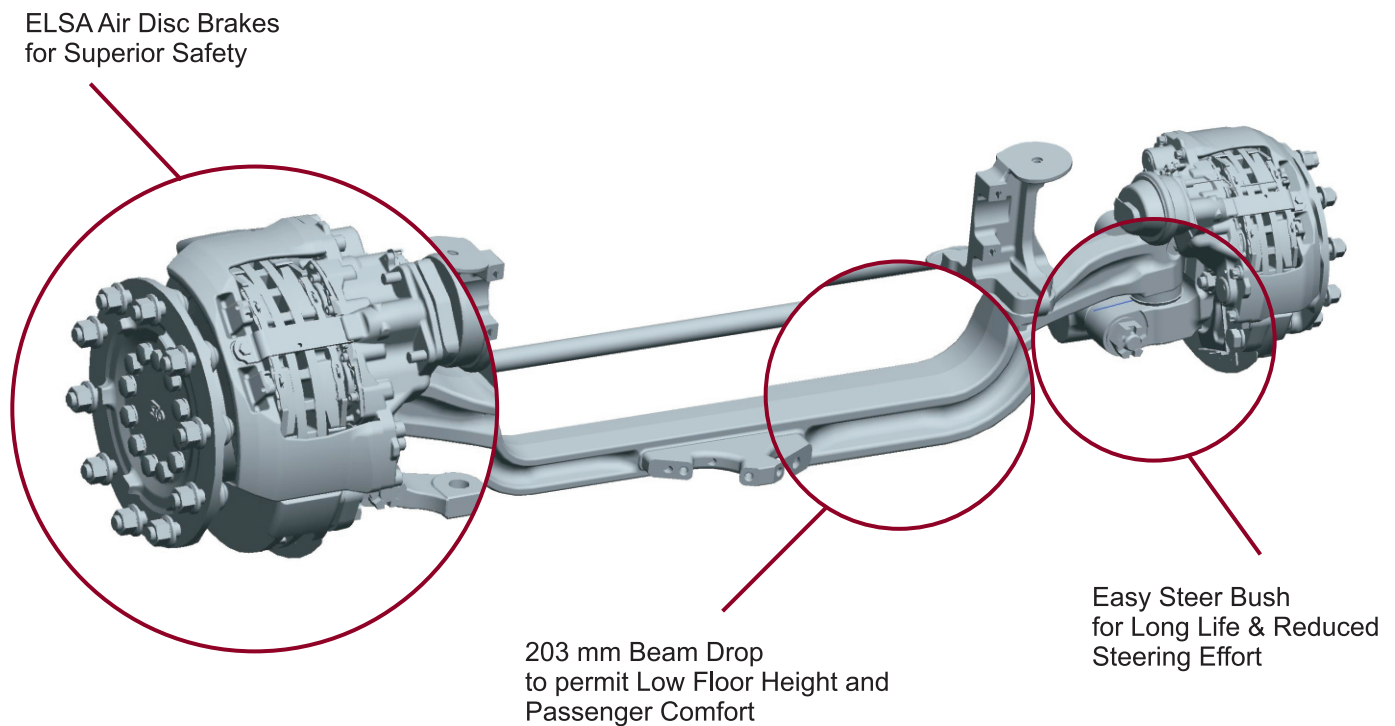

Performance Advantages:

- India's first locally manufactured low floor front steer bus axle with a deep drop beam to suit low and semi low floor Intra city bus and coach applications
- 'Easy steer Bush' for reduced steering effort and long steering components life
- Conventional type knuckle for better serviceability and reduced maintenance
- Unitized Wheelend lubricated for life providing consistent and improved performance
- Air disc brakes to provide effective braking power under all operating conditions
- Suitable for both Air suspension & Conventional mechanical suspension
- Machined to perfection for consistent and stable steering geometry

Product Description :

Best suited product for emerging Indian urban and semi-urban mass transportation needs, combined with Air Disc Brakes (ADB) it delivers exceptional comfort along with superior safety and stability.

FH946 has been in successful operation in demanding markets like North America and Europe and has now been localized in India with complete part validation to ensure price and performance advantage for Indian market.

Product Specification :

GAWR Tonnes	Track mm	Overall Width mm	Beam Drop mm	Turn angle	Application
7.5	2184	2591	203	51°	Low & Semi Low Floor Buses
